3. Highlight of the Week

25X1A9a
25X1A9a

From the point of view of the student, the appearance of [REDACTED] as a speaker on Thursday morning was probably the high point of the program. [REDACTED] is Chief of Personnel at Vietnam Station and was home on a visit. Because of this position, and because he is naturally helpful, he gave a much more useful "Report on Current Living Conditions" than can be given by the average returnee. It is not often that such a person is on hand to give this presentation; and so when he is, it is worthy of note.
